* State law requires issuers to submit a "Bond 101" report within 20 days of issuance (see page 2). Compliance is not universal, so data for recent months may be less complete.

We cannot guarantee full compliance with state reporting requirements, so debt issue listings may not be exhaustive.

Bond issue reporting requirements

Chapter 39.44 RCW requires information on newly issued bonds to be supplied to the Department of Community, Trade and Economic Development (CTED) within 20 days of issuance. The underwriter submits information on a "Bond 101" report form available in Microsoft Word (see "Forms" in the lower part of our web page). In cases where an issue is made without an underwriter, the issuer or its representative supplies the information. The issuer may opt to have an agent, such as an underwriter or bond attorney, complete the form or appropriate portions thereof. The following agencies have the responsibility of completing reports:

- ◆ A state fiscal agency, when it acts as bond registrar for an issue (with local governments supplying all necessary information);
- ◆ Local governments issuing debt for whom the state fiscal agency is not the bond registrar;
- ◆ State agencies issuing bonds (although, in this case, bond information is requested, not required).

The Bond 101 deadline dilemma: Speed of submission versus completeness?

We know that submitting a Bond 101 form within 20 days is a tall order (see above for details on the state statute), particularly if the data you need isn't immediately available. So here are some rules of thumb to think about:

- We are just as concerned about the completeness of the data as we are about timeliness. If waiting an extra week or two would allow you to obtain final figures — particularly if they may end up very different from current estimates — then taking that additional time makes sense to us.
 - If you aren't sure about whether a cost figure is final, be sure to designate it as an estimate. You can do this by checking the box next to the cost item in the recently updated Bond 101 form (available on our web page).
 - If you'd like your debt issue to be listed in the next monthly Excel spreadsheet of Bond 101 data and/or the *Bimonthly Update*, we need to receive your Bond 101 form before the last working day of the month.
 - We all get extremely busy at times, but we'd invite folks to develop the habit of moving Bond 101s off their desks promptly. Late submissions skew the data on which everyone depends — including your firm or agency.
- If you have any questions or concerns, please contact Liz Green-Taylor at 360/725-5021 or buc@cted.wa.gov.

Table terms, A to Z

Debt type. Abbreviations include Com Paper (commercial paper), GO Bonds (general obligation), LID Bonds (local improvement district), Rev Bonds (revenue), TANs or BANs (tax or bond anticipation notes), COPs (certificates of participation), and IBWs (interest-bearing warrants).

Gross underwriting spread. This is the difference between the amount paid to the issuer for the bonds and the amount expected to be yielded when the bonds are resold on the secondary market. The total spread and cost per thousand are listed.

Interest rate. This is the reported net interest rate, and is calculated with the following formula:

$$\frac{\text{Aggregate Interest Payable (+Discount - Premium)}}{\text{Par Value of Issue} \times \text{Average Life}}$$

Issue number. This is the number assigned to an issue as it is being inputted into our database.

Issue series. Multiple issues are designated, and whether bonds are taxable. When multiple issues are reported on one Bond 101 form and have different interest rates, they are listed separately and issue costs are shown under the first issue number. When interest rates are identical, the entire series is listed under one issue number and par values totaled.

Maturity date. For issues that have multiple offerings, the date listed is the one farthest into the future.

New/refund/combo. This designates whether the issue is original, is intended to refinance existing debt, or is a combination of the two.

Par value. This is the amount of the principal or aggregate face value of the issue.

Principal user. In some cases the principal user will not be the issuer. An example of this arrangement is one in which a state agency (the issuer) issues a bond for a local government body (the principal user).

Sale date. This is the date of the bond sale. For a competitive offering it is the date of the bid opening. The date of sale for a negotiated offer or a private placement is the date of the signing of the bond purchase agreement.

Sale type. There are four categories: Neg Sale (negotiated sale), Comp Bids (competitive bids), Private (private placement), and Mini (mini bonds). Competitive bids are open to any underwriter. A negotiated sale is arranged with an individual underwriter. A private placement is a direct sale to one or more investors.

Voter approved? This designates whether the bond issue was approved by a three-fifths vote of the electorate.
